

**DON'T WASTE WATER**

**BECAUSE EVERY DROP  
IS IMPORTANT**

*Turn the water off while you brush. Turn it on only to rinse.*

*Listen for leaky faucets and turn off drips.*

*Use a brush, washcloth, or sponge for scrubbing instead of a stream of water.*

*Take a short shower.*

*Use a tub or bucket to wash the dog or the car. Turn on the hose only to rinse.*

*Use less water in your bath. Every inch of water you don't put in the tub saves five gallons!*

*Use water more than once. Water from the fish bowl or the bath tub can water plants indoors and out.*

*Ask your parents if it's all right to flush the toilet less often.*
